

Efficient, easy to install,
and field-adjustable.
The all-new MASI[®] canopy light.

A better canopy light starts here.

The reimagined MASI delivers powerful, uniform illumination in a sleek design that blends seamlessly into any canopy soffit. With two sizes that boast field-adjustable wattage and CCT, you can fine-tune the output on site to match the unique needs of the application with just a single SKU.

RAB's warranty is subject to all terms and conditions found at rablighting.com/warranty

Slim, sustainable design.

MASI is a semi-recessed fixture with an ultra-low-profile housing that keeps it tight to the canopy for a clean, modern appearance and maximized clearance that's crucial for service stations, drive-thrus, and other applications that must adhere to strict height restrictions.

Effortless control.

Standard 0-10V dimming gives you smooth, flicker-free output adjustment right out of the box. Pair it with photocells or building management systems for energy-saving automation across the entire site.

Simple installation.

The MASI is easy to install for retrofits and new construction. It mounts directly into standard canopies with single-deck construction for a fast, straightforward install (*access to junction box from above the canopy is required*).

Ordering Matrix

Product Family	Size/Wattage	Color Temperature	Finish	Driver		
MASI						
16L	16" x 16" (100/80/60W)	Blank	3000/4000/5000K	Blank White	Blank	120-277V, 0-10V Dimming
16	16" x 16" (150/120/100W)					
20	20" x 20" (200/180/150W)				Blank /480	480V, 0-10V Dimming
